

DNTJ CARBIDE TIPPED ANNULAR CUTTER WITH J-TYPE WELDON SHANK 硬质合金J型削平柄钢板钻

- 削平柄型, 保证大规格钻孔时的夹持力与夹持精度, 适合直径50mm与以上规格;
- 专用硬质合金刀片, 分层及低摩擦力切削几何;
- 适合多种磁座钻机、钻床等设备上钻孔与环形槽加工;
- Parakkal shank ensures the clamping force and clamping accuracy when drilling large diameter, and it is suitable for the diameter of 50mm and above;
- Special carbide tips with layered and low friction cutting geometry;
- Applicable to drilling and process of annular groove on various magnetic drilling machines and press.

单位(Unit): mm
